SUMMARY

Computer Science and Design undergraduate with hands-on experience in Java, React.js, Spring Boot, FastAPI, and SQL databases. Experienced in building full-stack web applications and AI-powered solutions through academic projects and hackathons. Possess strong problem-solving, adaptability, and teamwork skills, and eager to contribute to innovative software development while continuously learning modern technologies.

SKILLS

- **Programming Languages:** Java , C++ , Python
- **Web Technologies:** React JS, Spring Boot
- **Databases:** MySQL, PostgreSQL
- **Soft Skills:** Problem-Solving, Team Collaboration, Adaptability

PROJECTS

• Quiz Management Platform

[GitHub](#)

Technologies: React JS , Spring Boot, PostgreSQL

- Developed a full-stack quiz application using React.js, Spring Boot, and PostgreSQL.
- Enabled admins to create and manage quizzes and questions.
- Allowed users to attempt quizzes and view real-time results.
- Implemented secure authentication with role-based access control.
- Integrated PostgreSQL for efficient and reliable data management.

• AI-Enhanced Grievance Redressal System for Indian Railways

[GitHub](#)

Technologies: React JS , Spring Boot , Fast API , PostgreSQL

- Developed an AI-powered grievance management system for Indian Railways.
- Implemented automated complaint classification and priority detection using machine learning.
- Integrated mBERT (Multilingual BERT) for multilingual complaint analysis and improved text understanding.
- Built a full-stack application with secure role-based access.
- Enabled real-time tracking and status updates for users and railway officials.

HACKATHON EXPERIENCE

• Uzhavu Hackathon

January 2025

Role: Frontend Developer **Tech Stack:** React.js, FastAPI, Machine Learning

- Designed and developed a responsive React.js frontend for an AI-powered livestock disease prediction system, enabling farmers to input symptoms and receive real-time disease predictions
- Collaborated with the backend team to integrate FastAPI APIs and machine learning models, delivering accurate disease diagnosis, symptom-based analysis, and an intuitive user experience for livestock health management.

EDUCATION

- **Sri Krishna College of Engineering and Technology**
Bachelor of Engineering in Computer Science and Design

September 2023 - May 2027

CGPA: 7.8/10

- **Higher Secondary Certificate**

April 2023

K V Sala Higher Secondary School
Grade: 87.1%
