

SUMMARY

Java Full-Stack Developer with hands-on experience building web applications and AI-powered solutions using React.js, Spring Boot, FastAPI, and MySQL. Strong foundation in Data Structures and Algorithms, demonstrated through 330+ LeetCode problems and hackathon achievements. Experienced in developing full-stack applications, integrating machine learning solutions, and collaborating on team-based projects

EXPERIENCE

Livestock Health Management System | Role : Frontend Developer

Uzhavu Hackathon Finalist, IIT Madras | Jan 2025

- Led a 3-member team in developing a livestock health management system.
- Engineered responsive frontend interfaces using React.js, improving user experience across multiple modules.
- Designed and implemented modules for animal health tracking, notifications, reporting, and analytics dashboards.
- Collaborated with backend and ML teams to integrate application functionalities.
- Achieved Finalist recognition at the IIT Madras Uzhavu Hackathon 2025.

TECHNICAL SKILLS

Languages:	Java, C++
Frontend:	React.js, HTML5, CSS3
Backend & Frameworks:	Spring Boot, FastAPI, RESTful APIs
Databases:	MySQL
Data Analytics:	Power BI, Data Visualization
Tools:	Git, GitHub, Postman
Design & Prototyping:	Figma, Canva
Core CS Concepts:	Data Structures & Algorithms, OOPs, DBMS

PROJECTS

Alumni Management System | React.js, Spring Boot, MySQL, Spring Security, JWT

- Developed a full-stack Alumni Management System using React, Spring Boot, MySQL, and JWT Authentication.
- Implemented role-based access control for Admin, Alumni, and Student users using Spring Security and JWT authentication.
- Built modules for mentorship, job postings, event management, networking, and real-time messaging.
- Designed and integrated RESTful APIs and relational database architecture to manage users, connections, jobs, and events.

AI-Enhanced Automated Grievance Redressal System for Indian Railways

- Enhanced a microservice-based complaint management system for railway grievance tracking.
- Integrated a FastAPI-based AI service achieving 93% complaint classification accuracy and automated urgency prediction.
- Trained a Machine Learning model for complaint categorization and priority-based routing.
- Developed an Apache Kafka messaging pipeline enabling asynchronous AI processing and contributing to a 60% reduction in complaint response time.

ACHIEVEMENTS & ACTIVITIES

- Finalist, Uzhavu Hackathon 2025, IIT Madras.
- Finalist, Smart India Hackathon (SIH) 2025 – College Level.
- Solved 330+ DSA problems on LeetCode.

EDUCATION

Bachelor of Engineering – Computer Science and Design	September 2023 - Present
Sri Krishna College of Engineering and Technology	Coimbatore, Tamil Nadu
CGPA : 8.14
